Text Responses	
Question: TA: Greatest strength	Very accessible. Would quickly respond to emails and was always available to help.
	Enthusiasm and knowledge of course materials. Also, looked after students and asked for rubric for homework.
Question: TA: Improvements	Dealing with an uninterested crowd that doesn't show up to class
Question: TA: General comments	Awesome TA! The class was poorly structured and he helped a lot.
Question: TA: Greatest strength	Knew material and was always prepared.
	N/A
	His knowledge of the material.
	He related to the students very well and understood when a certain topic might be hard to understand and explained them with very current and relevant examples. To be honest, he engaged my interest in the course more than Dr. McCord.
Question: TA: Improvements	NA
	N/A

All the TA's sometimes lacked communication with each other leading him to not know some things he maybe should have known (not necessarily his fault, more the set-up of the classes fault).

Question: TA: General comments

Great job.

N/A
